

CM2H

● SPECIFICATIONS

- Tank capacity 2 l
- 21 l/min max.
- 250 bar max.
- 80°C max.
- Adjustable detergent flow rate

Designed to apply foaming products that need long-lasting reaction time, to clean and disinfect sanitary facilities, breeding buildings, agrofood industry laboratories etc.

Advantages : The visibility of the white and thick foam lets the user check that all the surface to clean or disinfect has been treated.
