

DEBOU17

DEBOU24

MICRO12

## ● SPECIFICATIONS

For clean and environment-friendly clearing and unblocking of all types of pipes and water drains from Ø 30 mm to 120 mm (60 mm for MICRO12).

Thanks to its forward jet the unblocker nozzle attacks the obstacles (jams). Depending on flow rate and pressure, the unblocker nozzle advances along the pipe automatically, thanks to the backwards jets, which enable to direct it, to clear and clean the drain.

**The unblocker nozzle connects directly to the HP hose of the HP washer.**

| REF.    | DESCRIPTION  | Interior diameter |
|---------|--|-------------------|
| DEBOU17 | Stainless steel nozzle R3/8M<br>6 jets backwards + 1 jet forward                             | 17 mm             |
| DEBOU24 | Stainless steel nozzle R3/8M<br>3 jets backwards + 1 jet forward                             | 24 mm             |
| MICRO12 | Nozzle R1/8M<br>3 jets backwards + 1 jet forward<br>For unblocker kits DP13-15N and DP13-30N | 12 mm             |
