

DP2420

● SPECIFICATIONS

- 20 m 5/16 hose
- Nozzle Ø 24 (1 jet forward et 3 jets backward)

For clean and environment-friendly clearing and unblocking of all types of pipes and water drains of more than 60 mm diameter. The unblocker kit connects directly to the spray gun of the HP washer. Thanks to its forward jet the unblocker nozzle attacks the obstacles (jams). Depending on flow rate and pressure, the unblocker nozzle advances along the pipe automatically, thanks to the backwards jets, which enable to direct it, to clear and clean the drain.
