

CM2H2

● CARACTÉRISTIQUES

- Tank capacity: 2 l
- Pressure: 250 bar max.
- Temperature: 60°C max.
- Adjustable detergent flow rate

Reference	CM2H2.1	CM2H2.3	CM2H2.5
REAL FLOW RATE HP pressure washer	900 l/h from 10 to 15 l/min	1260 l/h from 16 to 21 l/min	1800 l/h from 22 to 30 l/min

Designed to apply foaming products that need long-lasting reaction time, to clean and disinfect sanitary facilities, breeding buildings, agrofood industry laboratories etc.

Advantages : The visibility of the white and thick foam lets the user check that all the surface to clean or disinfect has been treated.
