

KITHYDRO2

SPECIFICATIONS

- KITHYDRO is an accessory for your HP washer, designed to empty and deeply clean ponds, sumps, tanks, swimming pools..
- KITHYDRO can suck and drain away waste such as sand, mud, algae and gravel (up to 20 mm thick) to a maximum depth of 4 m.
- Depending on the power of the high pressure washer, KITHYDRO can empty from 8 000 to 18 000 l/h.
- It works by venturi effect, which associates the action of high pressure washing (thanks to the HP nozzle B00) and the suction action created by the flow of water under pressure.

INCLUDES

- 1 hydro-ejector
- 4 m PVC hose \varnothing 30 to drain away water and waste
- 3 m HP hose for water inlet and cleaning
- 1 HP nozzle B00_ __, size of nozzle to determine depending of your HP washer
